

Concerned Women for America of Washington

presents two serious topics in one event

Reprogramming the American Mind

It is time to expose reform education as the experiment destined for failure. It is a loss of local control, parental rights and privacy, and results in a high cost for our state.

Islam's Assault on the U.S. Constitution

Our constitution is being tested in the courts by Islam. It is time to stand up for our foundational principles and remind others of our firm belief that we are One Nation Under God.
