

Dr. Heinz Lycklama is speaking on [Information: The Basis For Life](#)
at New West Community Church, 322 Hospital St., New Westminster, BC Canada
on Saturday, February 18, 2017 at 7:00 PM

Information: The Basis For Life. - We examine how and where life originated – On earth? In some warm pond as suggested by Darwin? In an ocean vent? By means of self organization? By means of panspermia? By means of directed panspermia? Or was life created according to its kinds by a Designer as described in the first chapter of Genesis? The role of information in living organisms leads us to the inevitable conclusion.

Life consists of material (matter & energy) as well as non-material parts (information). We discover the similarity in the nature of information, machines and programs in writing systems, computer systems, and living systems Each requires a design, and therefore a designer. This similarity helps us to explain why life did not, does not, and will not start from non-life by chance. Science and the Bible agree on this.

The information and the programs running in the human cell provide evidence that we were created by an Intelligent Being (God) and did not get here through self organization and evolution. Living organisms require information, complexity, and design. These all require an intelligent designer.

Dr. [Heinz Lycklama](#) earned a PhD degree in Nuclear Physics from McMaster University in Canada. Since then he has worked in the telecommunications and computer software industries at Bell Telephone Laboratories in NJ and at Interactive Systems Corporation in CA - as an individual contributor and in management positions. In 1992 [Dr. Lycklama](#) formed Open Systems Technology Associates ([OSTA](#)) to offer his technology management consulting services to various start-ups in the high technology industry. In 2013 Heinz founded the [Apologetics Forum](#) to help equip believers in the defense of **The Faith**.

Dr. Lycklama has always maintained an active interest in the [Creation vs. Evolution](#) controversy. He has developed a series of lectures and courses on [Creation vs. Evolution](#), [Christian Apologetics](#) and [Biblical Worldview](#) over the years and presented the material in Sunday school classes, to college students, during church services, at Bible Schools, and other venues in Europe, Asia, Africa and North America. With his knowledge of the Bible and science, [Dr. Lycklama](#) has continued to develop and present new material in these subject matters. Many of his messages of the last ten years (both **lectures** and **sermons**) are on his website ([HeinzLycklama.com](#)) at [HeinzLycklama.com/messages](#).

The [Apologetics Forum of Snohomish County](#) ([AFSC](#)) was founded to help equip Christians in the defense of The Faith in the postmodern world in three related areas: 1) [Creation vs. Evolution](#), 2) [Christian Apologetics](#) and 3) [Biblical Worldview](#). [AFSC](#) provides a local Forum for lectures and DVD programs by knowledgeable presenters on these topics. All presentations are given with the presupposition that the Bible is God's inspired Word and is accurate and inerrant in its original autographs. The Bible is a total worldview that speaks to all disciplines and areas of our life. More on [AFSC](#) at [ApologeticsForum.org](#).
