

**Dr. Heinz Lycklama is speaking at Camano Chapel on Sunday morning,
October 8 during the Sunday School hour and at the three Worship Services**

Sunday School @ 10:15 AM: Heinz will bring a message on [Information: The Basis For Life](#). Life consists of material (matter & energy) as well as non-material parts (information). We look at the nature of information, machines and programs in writing systems, computer systems, and living systems. Each system requires an intelligent mind and a design, and therefore an intelligent designer. The information and the programs in the human cell are orders of magnitude greater than that of a computer system. Living organisms require information, programs, storage, complexity, and design. We were created by an Intelligent Being (God) and did not get here via random chance.

Worship Services @ 8:30, 9:00 & 11:15 AM: Heinz will bring a message on [You Can Trust The Bible](#). Religions are based on their holy book(s.) The Christian faith is based on the Bible. The Bible claims to be God-breathed. Skeptics, atheists and recent polls would have us believe otherwise. Prophecy, history, geography, and archaeology confirm its Truth. There are some amazingly accurate scientific statements that anticipate the science of today. The Bible is like no other book in the world. It provides many sound evidences and convincing proofs that it is indeed God's Word. The Bible is authoritative in all matters that it addresses; it is infallible, inerrant, complete and final. Know what you believe, why you believe this, and how to defend what you believe. **1 Pet. 3:15**; **Jude 3**.
