

Dr. Don Johnson Speaking on
Awesome Eclipse & Other Astronomical Wonders
Friday September 8 at 7:00 PM

Edgewood Bible Church
1720 Meridian Ave E
Edgewood, WA 98371

Description: Dr. Johnson observed the total solar eclipse that passed over the US on Monday, August 21. He will show pictures he took of this unique eclipse. Other pictures of eclipses and awesome star formations as captured by others will be shared. A total solar eclipse requires the sun, moon and the earth all to be in 3-body alignment. Scientific discoveries have been made during solar eclipses, especially

total eclipses. They allow scientists to see the chromosphere (Sun's atmosphere), Bailey's Beads (caused by moon's irregularities), the "Diamond ring" effect (caused by light through a deep Moon valley), as well as other effects. Past discoveries and projected studies made possible by eclipses are highlighted. There will be Biblical references, as well as discussion of constellations, Zodiac, astrology, and astronomy. God's use of heavenly signs will be discussed, especially those recorded in the Bible and the 7-year separation between the very rare total solar eclipses.

Speaker: **Dr. Don Johnson** has earned PhD's in both Computer & Information Sciences from the University of Minnesota and in Chemistry from Michigan State University. He was a senior research scientist and consultant for 15 years, and taught 20 years in universities in Wisconsin, Minnesota, California, and Europe. Since "retiring," he has done consulting, speaking, and writing (4 books & several peer-reviewed papers). He has made presentations across the US and on most continents. His www.4iam.org Christian website has

links to several video presentations and printable flyers, as well as to his two secular science websites (peer-reviewed papers).
